Initio says:

The Tobacco, Vanilla, Rum and Cinnamon harmony of this fragrance is spellbinding. It tantalises the most discerning senses by playing off each of its facets - Leather, animal and the woody note of Vanilla - one by one. Recklessly bold... and stirring. Deeply buried emotions and passions take over. The fragrance lifts the veil on the unsayable. This passionate perfume has the power to plunge its wearer into that altered state where nothing is too daring because there are no risks left.
