Floris says:

Vert Fougère Eau de Parfum is a tenacious, multi-faceted unisex fragrance reflecting a journey embarked upon by the Floris perfumers to re-imagine the classic fougère fragrance; the archetype of bold perfumery. Vert Fougère is a moody fragrance, that embraces its green, mossy foundations and adds a sparkling modernity. A bittersweet blend of grapefruit, bergamot and neroli entwine with ginger and lavender for added freshness while earthy patchouli, cedarwood and smooth cashmere in the base ensure endurance and a lasting legacy. Conveying the delicate line between understated yet having individuality, the fragrance envelopes the wearer with its complex and distinctive character, defined by a juxtaposition between dark green notes and smoky, velvety, woody scent accords, both fresh and warm in equal measure. Vert Fougère is the essence of a cultural leader who values precision and seeks nuance and balance in life between the old and new, tradition and innovation, authenticity and modernity.
